CORAL PICKS - THE WARDROBE CHECKLIST
What we verify before any piece earns a pick

FIT
[ ] Size measured on body, not from the size chart alone
[ ] Shoulder seam sits at the shoulder bone
[ ] One size up considered if the brand runs small (checked in reviews)
[ ] Sleeve and length work for the intended wear (tucked / untucked)

FABRIC
[ ] Fiber content listed and understood (cotton weight, stretch %)
[ ] Fabric weight suits the climate it will be worn in
[ ] Knits checked for pilling risk (short loose fibers = caution)

PRICE
[ ] Price checked on the day of writing, date printed next to the number
[ ] Budget / mid / splurge version of the same piece identified
[ ] Price-per-wear estimated for the realistic wear frequency

CARE
[ ] Care label read - machine washable or not
[ ] Ten-wash test result available for basics (or test scheduled)
[ ] Drying method confirmed (air dry vs tumble)

VERDICT
[ ] Works with at least 2 pieces already owned
[ ] Retire plan: when it wears out, is it replaceable or unique?
[ ] Honest note: would we buy this again at full price?
